PRESCRIBING AUTHORITY: DoD Instruction 5400.16, "DoD Privacy Impact Assessment (PIA) Guidance". Complete this form for Department of Defense (DoD) information systems or electronic collections of information (referred to as an "electronic collection" for the purpose of this form) that collect, maintain, use, and/or disseminate personally identifiable information (PII) about members of the public, Federal employees, contractors, or foreign nationals employed at U.S. military facilities internationally. In the case where no PII is collected, the PIA will serve as a conclusive determination that privacy requirements do not apply to system.

c. Describe the purpose of this DoD information system or electronic collection and describe the types of personal information about individuals collected in the system.

Sysmex Caresphere Workflow Solution (Caresphere WS) is a data management and processing system for Sysmex hematology, urinalysis and chemistry medical devices. Caresphere WS is a management system that offers a comprehensive analyzer and result management tool. Caresphere WS consolidates data from multiple analyzers, performs complex rules-based functions, and then sends this information to the Laboratory Information System (LIS) to assist health care providers with assessing results and treatment planning.

Caresphere WS may send to and collect limited Personally Identifiable Information (PII) from the Defense Health Agency (DHA) LIS: demographic information, including personal and work contact information, medical information, and Protected Health Information (PHI). The categories of individuals on whom PII/PHI may be collected include active duty military, their family members, and military retirees.

CyberLOG is responsible for the Risk Management Framework (RMF) process, and gaining an approval from DHA's Joint 6 Risk Management Executive Division (DHA J6 RMED). Local sites are responsible for day to day operations, maintenance, and management of the device. Sites are responsible for ensuring the device is configured to meet CyberLOG and RMED approved configurations.

d. Why is the PII collected and/or what is the intended use of the PII? (e.g., verification, identification, authentication, data matching, mission-related use, administrative use)

The PII is collected for identification purposes to match individuals with their medical records and to ensure accuracy when those records are integrated with other records for the same individual. The PII collected will be used for mission-related purposes that support the delivery of health care services.

e. Do individuals have the opportunity to object to the collection of their PII? Yes ☒ No

(1) If "Yes," describe the method by which individuals can object to the collection of PII.

(2) If "No," state the reason why individuals cannot object to the collection of PII.

Individuals do not have the opportunity to object to the collection of their PII because Caresphere WS is not the initial point of collection.

f. Do individuals have the opportunity to consent to the specific uses of their PII? Yes ☒ No

(1) If "Yes," describe the method by which individuals can give or withhold their consent.

(2) If "No," state the reason why individuals cannot give or withhold their consent.

Individuals do not have the opportunity to consent to the specific uses of their PII because Caresphere WS is not the initial point of specific uses.

g. When an individual is asked to provide PII, a Privacy Act Statement (PAS) and/or a Privacy Advisory must be provided. (Check as appropriate and provide the actual wording.)

Privacy Act Statement

Privacy Advisory

☒ Not Applicable

Caresphere WS does not collect PII directly from individuals. Therefore, no Privacy Act Statement or Privacy Advisory is required.

h. With whom will the PII be shared through data/system exchange, both within your DoD Component and outside your Component?

The military treatment facilities (MTF) may utilize contractor services to support this product. DoD policy requires such contracts include language to safeguard PII including FAR clauses: 52.224-1, Privacy Act Notification; 52.224-2, Privacy Act; and FAR 39.105, Privacy.
